

Andrzej Delgado

PRODUCT DESIGNER × DESIGN ENGINEER × PRODUCT LEADER

Based in Málaga · andrzej@delgado.pl · +48 509 629 907

[Portfolio ↗](#) · [LinkedIn ↗](#)

Summary

Principal Product Designer with 15+ years across complex, multi-brand, data-heavy B2C platforms from ideation to launch. Known for managing high-performing design teams, delivering complex cross-functional products at scale that improve acquisition, engagement, and retention. Introducing agile/AI-driven design workflows, that result in design that not only looks great but is technically sound. Comfortable as a hands-on staff/senior IC. Trusted partner to Product and Engineering leadership across regulated, highly technical environments.

Skills

Design Systems · Cross-functional collaboration · Design engineering · System Governance · System Thinking · Design leadership · Mentoring · Design strategy · User research · End-to-end Design · Driving business impact · Design workflow orchestration · People management · AI creation and integration

Claude Code · Cursor · Codex · GitLab · GitHub · Jira · Gemini · Figma · HTML/CSS · React · Next.js · Tailwind

Professional Experience

Principal Product Designer, The Workshop

FEB 2023 - PRESENT

MÁLAGA, SPAIN · FULL-TIME

- Led the creation, evolution and launch of the multi-brand design system, improving consistency and scalability across a growing product surface. Leading dedicated design team and supporting engineering team/s scaling 14 → 100+ **Saturn Heavy** .
- Shipped new platform that gave users real performance gains of -54% LCP, -71% FCP, -79% TTFB in mobile and equally good gains in desktop **Saturn Heavy** .
- Coined and shipped Surfaces vs. Backgrounds, Tones, new Token Mapping method, Composite Components, Component-Level Dark Mode, Surface Deck Levels, and the Progressive Design Model — the systems language **Saturn Heavy** now runs on.
- Led replacement of the legacy platform across 12 brands — frontend transformation programme **Terraform** .
- Built and led design pods supporting 15+ designers and 50+ engineers **Titan** .
- Introduced Agile to a waterfall design team and built new operating model, lifting cross-collab efficiency 4.5× **Titan** .
- Introduced AI-powered prototyping workflows and created a machine-readable markdown files layer, enabling PMs, developers, and AI agents (Claude Code, Cursor) to generate on-brand prototypes without design team dependency, shortening validation cycles across the organization.

Senior Product Designer, The Workshop

JAN 2021 - FEB 2023

MÁLAGA, SPAIN · FULL-TIME

- Led delivery of an agnostic component library that streamlined wireframing, prototyping, and developer hand-off across a multi-product portfolio.
- Gave design direction, managed deliverables, and owned tokenization, guidelines, and design-language quality across multiple regulated-product initiatives — aligning outputs with programme and roadmap commitments.
- Championed design thinking and tight design–developer collaboration; balanced regulated-product constraints against user needs and surfaced compounding process improvements.
- 3× Hackathon Winner during Geek Week at The Workshop; 5× Top 50 Mentor and Top 1% Mentor in Design on ADPList.

Product Designer, The Workshop

JAN 2020 - JAN 2021

MÁLAGA, SPAIN · FULL-TIME

- Designed surfaces across The Workshop's multi-brand product portfolio — user experience, interface quality, and product consistency.
- Partnered with Product Managers, Engineers, mathematicians, and compliance stakeholders to translate business and regulatory constraints into clear, usable interfaces.

Senior UX/UI Designer, Clusterone

JAN 2018 - JAN 2020

GREATER SEATTLE AREA (REMOTE) · FULL-TIME

- Led design for Clusterone Matrix — an enterprise operating system for deep-learning experiments at scale; a data-and-compute product for ML engineering teams. Direct precedent for data-platform, analytics, and AI-product design.
- Owned UX research, wireframing, prototyping, and usability testing across a highly technical, data-dense surface.
- Partnered with Product and Engineering to maintain product consistency and ease of implementation across a complex stack.

UX/UI Designer, Good AI Lab

JUN 2017 - JAN 2018

SAN JOSE, CALIFORNIA (REMOTE) · FULL-TIME

- UX/UI design at an early-stage AI research lab — research artifacts, interaction patterns, and interface explorations under tight iteration cycles.

Founder & CEO, Delgado Design

NOV 2009 - JUN 2017

WARSAW, POLAND

- Ran an independent design studio serving startups and SMBs; led every engagement end-to-end from research through delivery — UX/UI, brand, and front-end implementation.

Education & Certifications

- University of Warsaw — Master of Laws (LLM), Law and Administration · 2005 – 2010
- EHU — Master of Laws (LLM) · 2009 – 2010
- Universidad de Castilla-La Mancha — Master of Laws (LLM), Spanish Law · 2011 – 2012
- Leadership and Communication — Harvard University · Oct 2024
- Project Management Beyond Planning and Control — Politecnico di Milano · Oct 2024
- Art Direction & Design Leadership — Awwwards · Sep 2024
- Enterprise Design Thinking – Team Essentials for AI — IBM · Sep 2024
- Enterprise Design Thinking Co-Creator — IBM · Sep 2024
- Cascading Styles: A CSS Deep Dive — Smashing Magazine · Sep 2023

Languages

Polish (native) · English (C2) · Spanish (C1)

Interests

- Tall Ship Races — Teacher / Crew Member aboard STS Frederick Chopin (School under Sail, 2019–2020); taught 40 students on a two-month voyage while standing watch on navigation and steering.
- Woodworking — decorative and useful objects for home, farm, and garden.
